It is further observed that complaint was filed after more than six years of the alleged occurrence without any reason whatsoever. The complainant attended only three hearings out of ten, which shows that he is not interested in pursuing the complaint before this Commission. The evidence of the eye witnesses has not been relied upon by the police, JIT as well as PTF, being close relatives of the Missing Person while independent witnesses i.e. security guards performing duty at the place of alleged occurrence have stated that no such occurrence took place. Above all, no allegation is levelled against any state/intelligence agency, therefore, this complaint does not fall within the ambit of this Commission. Hence closed. |

Further persusal of record shows that the alleged missing person and his close relatives are involved in extremism/anti-state activities etc. and closely connected with the banned organizations. This fact has not been refuted/rebutted by the complainant. Hence the case does not fall within the ambit of enforced disappearance and stands disposed of.                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
